

# ULTIMATE CONVENIENCE!

## Automatic Bottom Suction Pump

**No pressure switch or control boxes needed!**

Convenient and energy saving pump equipped with an innovative automatic on/off function. The stainless steel housing with the built in motor flow inducer allows for long term and safe operation in water from depths of 3 inches to 150 feet. Convenient and simple to install, the Strom BSP-010PF is ideal for cisterns, wells, tanks, and rain water collectors. Perfect for home, farm water supply and irrigation systems.

No need for pressure switches or control boxes, the Strom BSP series incorporates both a built in pressure and flow switch. Simple operation that automatically turns the pump on when pressure drops and turns off the pump when flow stops.

### Specifications:

**4" Noryl® Impellers**
