PREMIUM QUALITY SEDIMENT AND ACTIVATED CARBON FILTERS

LC-10S, LC-20S, LC-20AC

LUMINOR's range of sediment and activated carbon filters are the perfect addition to any water treatment system, providing peace of mind by knowing that your water supply has passed through these extra filtration steps.

Manufactured with 100% polypropylene, our sediment filters provide the required 5 micron pretreatment we recommend for a full water treatment system.

Combine this with an optional full-flow 25 micron carbon filter to treat taste and odour and you will have great tasting, odour-free water.

Product Features

- 5 micron sediment filter remove visible particles
- 25 micron carbon filter improves taste and odour
- Long lifespan for less filtration costs
- Suitable for high flow rates
- Quick and easy filter replacements
- Premium grade materials that meet FDA standards

Compatible with
LUMINOR's range of
rack systems
